Tom,

Attached are the draft LCO addendums and DER transmittal memos for acetamiprid, which PRD has requested that we sign out by this Friday to meet the overall neonic release deadline. Could you quickly review these files and let me know if you have any suggested revisions? The DER addendums follow a template designed by Frank and Christine, and so I tried to keep my changes to a minimum to maintain consistency across EFED in our LCO addendums.
